

First ever GPS summer special event!!

Michele Borba, Ed.D

UNSELFIE: WHY EMPATHETIC KIDS SUCCEED IN OUR ALL-ABOUT-ME WORLD

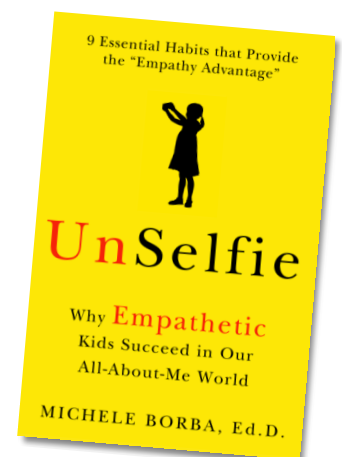

**June 15, 2016 / 7-8:30 pm / Glenbard South High School
42W200 Butterfield Road / Glen Ellyn**

Empathy is the ability to sense other people's emotions and imagine what someone else might be thinking or feeling. It is a trait that must be taught and nurtured - to confront today's self-absorption epidemic, and to enhance a child's ability to collaborate, innovate, and problem-solve.

In *UnSelfie: Why Empathetic Kids Succeed in Our All-About-Me World* (June 2016), author Dr. Michele Borba shares a revolutionary, researched-based, nine-step plan for reversing the Selfie Syndrome. Participants will come away with real world strategies to give kids the Empathy Advantage and a real success edge. Learn why self-control is a better predictor of wealth, health and happiness than grades or IQ and how to reclaim face-to-face conversation and kids emotional lives in a plugged-in world.

Join us and gain the results we all want: successful, happy kids who also are kind, moral, courageous, and resilient. Here is a blueprint for parents and educators who want to shift their kids focus from I, me, and mine ... to we, us, and ours.

Michele Borba, Ed.D., is an internationally renowned educational psychologist and an expert in parenting, and character development. She is an award-winning author of twenty-two books translated into fourteen languages, and an NBC contributor who appears regularly on *Today*.

All are welcome to this just-added free event and no registration is required.
